

**St. Mary's Hospital School of Medical Imaging**

5-14-20

Dear SOMI Students,

I hope this message finds you and your loved ones well during this challenging time. As we reconvene for the summer semester, I would like to provide an update on the current situation. As you are aware, due to the COVID-19 pandemic we had to suspend both on campus educational delivery and clinical activities. We moved all of our classroom-based courses online. We will continue to provide courses online until our Health System provides guidance on when we can return to on-campus educational activities.

With regards to the clinical component of the program, Bon Secours is planning to allow students to return to clinic beginning July 1<sup>st</sup>, 2020. With that being said, because of the scheduled summer break, **all Radiologic Technology students and MRI interns will return to clinical on Monday July 13<sup>th</sup>**. We are working on the specifics of what this will mean for you and will provide updates as we have more information.

Please know that the health and well-being of our students, faculty, and staff are our utmost concern and we will communicate updates as we know of them.

Take care and stay healthy.

Sincerely,

Bon Secours St. Mary's Hospital School of Medical Imaging faculty & staff
