

Continuing Education Course Description

MAMMOGRAPHY (M):

The total length of the Mammography (M) course is 16 weeks. This will include both classroom and clinical components. The class will meet for the first 10 weeks on Thursday nights from 5:30p – 7:30p. This course is hybrid, to include both in person instruction as well as online via zoom. Clinical time is offered days and may vary depending on the clinical site. **There is a minimum requirement to complete 16 hours of clinical time per week.** Clinical experience is geared to provide an opportunity to earn competencies for the ARRT advanced modality certification. There is **no guarantee** of completion of all ARRT requirements. Competency completion is heavily dependent upon clinical volume and intern motivation. The course is designed to instruct technologists on theory and processes used in Mammography, as well as meet the MQSA requirements. Course space is limited. There are **no clinical only** options available.

All topics covered follow ARRT content specifications:

- Patient Care
- Image Production
- Procedures

Prerequisites:

- RT(R) by ARRT

Costs:

- Application Fee: \$20.00
